## **1.0 Introduction**

- 1.1 Over recent weeks, the Government has made a series of announcements and implemented new regulations that seek to control of the spread of coronavirus. The success of these measures is critical to avoiding the need for tougher measures. Changes in this area are fast paced and further measures are expected in the coming days. A wide range of enforcement tools have been made available to the Council under various Coronavirus Regulations.
- 1.2 To date the following list of regulations have been brought into force. Unless otherwise stated in the report I shall refer to the below collectively as the Coronavirus Regulations.

  - The Health Protection (Coronavirus, Restrictions) (Obligations of Undertakings) (England) Regulations 2020 (SI 2020/1008) (as amended)
  - The Health Protection (Coronavirus, Restrictions) (Self-Isolation) (England) Regulations 2020

- 1.3 This report provides an overview of the Coronavirus Regulations and the related Local Authority enforcement tools, some of which will be familiar as they have been subject to extensive media coverage. It also requests the designation of officers within the Council to take such action under the Coronavirus Regulations as may be necessary from time to time. It should be noted that to ensure the effectiveness of the new measures there is an expectation that Local Authorities will take, proportionate, yet firm, action when breaches are found.

## **2.0 Coronavirus Restrictions**

- 2.1 Appendix 1 to this report provides an overview of the new powers introduced by the Coronavirus Regulations. It is anticipated that further regulations will be brought into force as the response to the pandemic changes in the months to come. Central Government guidance and template Fixed Penalty Notices (FPN) have been produced to assist Local Authorities with these new enforcement tools. It should be noted that the level of fines stipulated on FPN's is fixed by the Coronavirus Regulations and as such is not discretionary. The details are outlined in Appendix 1 and increase on sliding scale for repeat offenders.

## **3.0 Conclusions**

- 3.1 The report provides a high level overview of the new regulations and controls put in place to seek to control the spread of the coronavirus.
- 3.2 It is requested that the Director of Neighbourhood Services and Environmental Health Manager be designated as authorised persons whom can take necessary enforcement action under the Coronavirus Regulations.
- 3.3 A wide range of new restrictions have been introduced in very quick succession. These restrictions come with a range of enforcement powers and an expectation that they shall be used when necessary. Given the speed that the Coronavirus Regulations have been introduced it is requested that authority be delegated to the Director of Legal and Democratic

Services to designate officers to act as an authorised person under any further regulations introduced during the pandemic. This will enable the Council to take steps as quickly as possible following the introduction of any further regulations. It is proposed that any further regulations and the implications thereof be reported to the CMG and Group Leaders meeting as and when they arise to ensure that Councillors are fully informed and engaged in this fast moving area.

### **4.0 Implications**

- 4.1 It should be noted that payment of FPN's will result in some income for the Council. However, the costs of enforcement is likely to be more than any income received. In respect of the enforcement of regulations applicable to local lockdowns the receipt of payment of FPN's is currently centralised.
- 4.2 To date, the Council has not received any funding towards the enforcement of these provisions.

#### Human Resource/Training and Development

- 4.3 The Environmental Health Department is likely to find a further increase in workload.

#### Community Safety

- 4.4 The enforcement of the Coronavirus Regulations shall ensure the physical safety and wellbeing of the community.

#### Risk Management

- 4.5 None arising from this report.

#### Sustainability

- 4.6 None arising from this report.

#### Equalities

- 4.7 Those most vulnerable in society shall benefit from the effective use of enforcement tools introduced to reduce the spread of the virus.
