

## Statement of Community Involvement (SCI) Consultation Statement

The Statement of Community Involvement (SCI) sets out how and when the Council intends to engage the public in the planning process, on Local Development Documents, planning applications and Neighbourhood Plans. This version updates the adopted 2015 SCI. National planning guidance highlights the importance of keeping SCIs up to date to ensure effective community involvement at all stages of the planning process, and states that local planning authorities should undertake regular reviews and update their SCIs to reflect any changes to engagement.

While planning legislation does not set out a formal process for preparation or specify a requirement for consultation on the SCI, it is considered good practice to do so, in line with the Council's commitment to community engagement. The SCI has undergone the same stages of preparation and consultation outlined for Supplementary Planning Documents, as per the Town and Country Planning (Local Planning) (England) Regulations 2012, and summarised in Figure 5 of the SCI itself. This statement sets out:

- i. The persons the Council consulted when preparing the SCI
- ii. A summary of the main issues raised by those persons; and
- iii. How those issues have been addressed in the SCI.

The Council carried out public consultation on the SCI for a period of six weeks between 27 September and 8 November 2021. A list of persons consulted during that consultation can be found in Appendix 1. In addition, the consultation was publicised through notices in local newspapers and on the Council's website. Representations made have been considered and the main issues are summarised in Appendix 2. This also includes reference to how the issues raised have been considered and addressed.

The following modifications have been made as a result of the representations received, and are incorporated in the SPD. They enhance the quality of and/or provide updated information to the SPD:

- Minor updates have been made to Engagement techniques for DPD and SPD consultation in Appendix 2, to include additional reference to shopping centres, supermarkets and community noticeboards as venues for publicity material (under 'Leaflets and postcards' and 'Posters') in order to widen circulation of publicity and increase potential for engagement.
- Surrey County Council's Minerals and Waste Planning Team have been added to the list of statutory and non-statutory bodies consulted on certain planning applications in Appendix 4. It should be noted that this list is not exhaustive, and bodies not included may be consulted where appropriate to specific planning applications.

In addition to the above, an update has been made to Figure 2 Woking's Local Development Documents, to reflect that the Site Allocations is now an adopted part of the Development Plan. It has previously been referred to as 'Draft'.

The Council is satisfied that the SCI has been prepared in accordance with the relevant Regulations and statutory procedures.

## Appendix 2. Summary of the main issues raised in consultation, and how they have been considered and addressed

	Name of respondent	Summary of representation	Officer's response
1	James Greene on behalf of Surrey County Council Spatial Planning	Suggests that Minerals and Waste Planning Team is included in Appendix 4.	This suggestion is reasonable - several other teams at Surrey County Council are referenced in Appendix 4 (Statutory and non-statutory bodies consulted on certain planning applications) and it is appropriate that this team is consulted on certain planning applications. Modification supported, and included in the final version.
2	Tony Howe on behalf of Surrey County Council Historic Environment	No Comment	Noted
3	Marianne Meinke	<p>Suggests linking of section headings to the index/ content to increase ease and speed of access.</p> <p>While acknowledging the generally positive approach of the SCI to widening participation in engagement, states that this could be more positive and proactive by saying 'everyone would be consulted'. Suggests consultation publicity should be in supermarkets and on community noticeboards, and hard copy questionnaires made available in coffee shops, as not everyone visits the Council Offices or libraries. Clear information regarding the problem or issue and why feedback is needed, should be published, rather than small print</p>	<p>Noted and supported. This will be included in the final version of the SCI.</p> <p>Para 1.11 of the draft SCI sets out that 'the Council is keen to ensure the community is involved in key decisions on planning matters' and at para 1.12 states that 'the community includes all of the individuals, groups and organisations that live, work and operate businesses in the Borough'.</p> <p>The point on wider circulation of publicity is noted. A variety of techniques are included in Appendix 2 and are already used as appropriate to consult on different documents, depending on their content and</p>

	Name of respondent	Summary of representation	Officer's response
		<p>notices. Notes that newspapers have relatively low circulation, and can appear biased. There is a lack of certainty about whether advertisements will be included as the documents states they 'may' include them.</p> <p>Making contact through established groups such Neighbourhood Forums means the same people will continue to input. Some areas e.g. Maybury, do not have such established groups that represent the views of local people. Need to engage everyone, and be seen as open and inclusive rather than exclusive.</p> <p>Comments that the document is too long, at 43 pages, and that a simpler document may generate a better response. However, would like more detailed and unskewed data on participation eg postal v electronic communication.</p>	<p>scope. Shopping centres and supermarkets (see 'Displays' row in Appendix 2) are mentioned, and these have been used in the past. Minor updates will be made to ensure these wider venues are included in the 'Leaflets and postcards' and 'Posters' sections of the table in Appendix 2. Coffee shops may be used as a venue where appropriate, and where resources allow, in addition to what is stated in the document and better suited to leaflets, postcards and/or posters. Often planning documents under consultation are numerous and lengthy, and coffee shops may not have space to store them. These are deposited for public view at libraries, the Civic Offices and Woking Leisure Centre.</p> <p>Noted. Steps are made on a regular basis to engage everyone. Better ways of doing so are currently being prioritised and rolled out by the Council.</p> <p>The content of the draft SCI is considered necessary to adequately cover what is needed in terms of the process and engagement in local plan preparation, planning applications and neighbourhood planning. For consultation on some planning documents, leaflets summarising key points have been produced.</p>

	Name of respondent	Summary of representation	Officer's response
		<p>A point is made about double counting of representations, where people may respond in different roles e.g. as part of a residents group, Neighbourhood Forum and other club. This should provide one opinion, not multiple.</p> <p>Hard copy material should be made available to enable access to all e.g. those with disabilities, poor sight or those who work better with hard copies. The wording that the Council 'may' provide copies is unfair as it gives a choice.</p> <p>Planning documents and the IT needed to access them are difficult for many respondents to understand. Suggests that a named planning officer should be responsible for assisting consultees in accessing and understanding what is being applied for.</p>	<p>Detailed data can be provided in response to specific requests.</p> <p>Each representation received is considered with regard to its content, and the number of representations does not override the content of perhaps a single representation that makes a valid or significant point. People may legitimately respond in different ways in different capacities and roles, and each response will be given due consideration.</p> <p>Noted. Hard copies are normally available at the stated locations. The wording used means that hard copies will be made available where reasonable requests are made, and enables Council officers to ensure effective use of Council resources in this respect.</p> <p>Noted. The Council will continue to review the ease of access of planning documents including applications on its website. For planning applications, a contact details are published on planning consultation notices, and can be used to contact the case officer who can address questions relating to specific applications. For Local Development Document consultations, the Planning Policy's contact details are included in consultation publicity, and the public are encouraged to contact the team for explanation or to answer any questions.</p>

	Name of respondent	Summary of representation	Officer's response
		<p>Some Councillors are more involved and proactive than others, and some do not know what the needs of their local communities are, which impacts input in DPD production.</p> <p>On resources and accountability suggests that as well as the Planning Policy Manager a Planning Policy Officer should be nominated, so the people in control are responsible for the outcomes and goals set.</p>	<p>Noted. Councillors receive appropriate training on planning policy and development management to be well equipped to inform and/or decide on planning matters. Relevant committees are given the opportunity to consider and scrutinise planning documents and applications before decisions are made. Councillors are the eye and ears of their communities and use that knowledge to inform the planning process. They will continue to be encouraged to liaise with their communities on the issues that matter to them when they are inputting into the planning process.</p> <p>Resources for the SCI's preparation are managed effectively within the Planning Policy team, and the current wording allows flexibility as staff may change, or shift areas of responsibility, within the adopted time period of an SCI.</p>
4	Beata Ginn on behalf of Highways England	No Comment	Noted
