**BEST VALUE PERFORMANCE PLAN
INDICATORS**

OCTOBER 2015

EXCEPTION REPORT – OCTOBER 2015

The purpose of this report is to highlight those indicators where performance significantly differs from the target set for the year. This report needs to be read in conjunction with the detailed information and graphs which are set out in the following pages.

The criteria for selecting which indicators are included in this Exception Report, is essentially where performance is outside the upper and lower standard deviation limits set out on each graph. In some cases this will be where we are performing better than target and in others it will be where we are not meeting our target. A list of these indicators is set out below with a short commentary.

In other cases, (e.g. where standard deviation cannot be calculated because there is no previous years' information or where targets have not been set) indicators are highlighted when they are not on target and performance is very different from previous months.

EN-016		14	Appeals allowed against the decision to refuse planning applications	Since the start of the year there has been a low number of appeal decisions overall which has resulted in an exception. Performance generally on appeal remains strong in all areas, including tree appeals and enforcement notice appeals. All appeals are reported to Planning Committee with a narrative to give context.

Performance Management - Monthly Performance Monitoring of Performance Indicators

OCTOBER 2015

Introduction

The following charts present a number of key performance indicators as they appear in the 2011/2012 Service and Performance (Best Value) Plan. Not all indicators are shown.

National Indicators were introduced in 2008/09 and have since been discontinued. Locally it has been agreed to continue to collect and report these indicators, alongside local and ex-bvpi's. Ex-bvpi and local indicators have been broken down in categories by programme area as they appear in the Service and Performance (Best Value) Plan i.e. Corporate (CO), Economic (EC), Environmental (EN) and Social (SO). National indicators will continue to be referred to as NIs for 2011/12.

Additional information is shown on the charts to aid analysis and indicate where management intervention may be appropriate:-

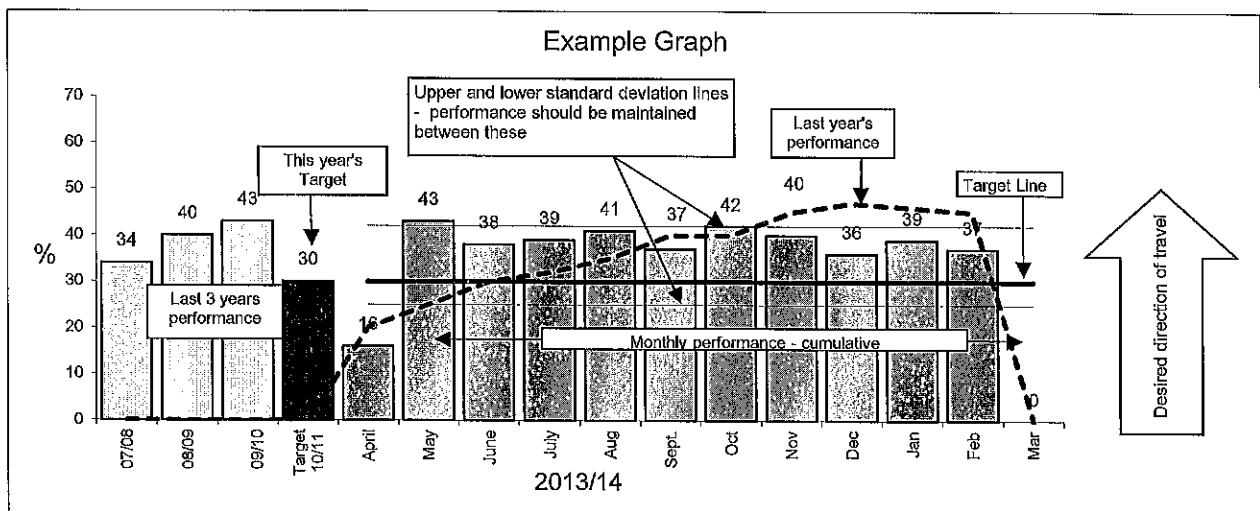

Last year's performance is shown as a dotted line which is useful for comparative purposes and enabling target profiling to be considered.

In many cases some natural variation in performance is to be expected and this is represented (in some charts) by a thinner line above and below the "target" line, based on calculating the standard deviation of previous year's actual performances.

Performance is reported cumulatively for most indicators. Where this is not the case it is indicated on each graph.

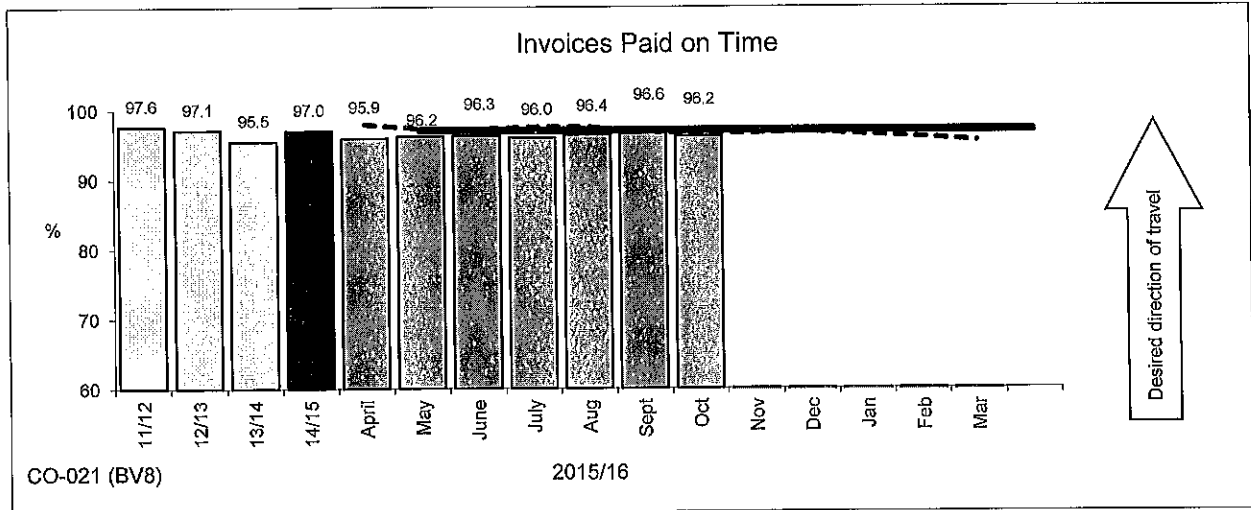

The objective of the additional information is to enhance the monitoring of performance. The aim is to be as close to the target line as possible and at least within the upper and lower lines. Significant variation outside these lines might indicate a need for management intervention or could suggest a fortuitous improvement which might not be sustainable.

Here's an example of the typical information you will find in each chart:

Notes:

CORPORATE HEALTH INDICATORS (Business Manager - Various)

Notes: Since January 2009, measures have been in place to reduce the time taken to pay Local Suppliers. The Average Number of Days taken to pay Local Suppliers in October was 19.90 (Target = 12 days); Average Number of Days taken to pay All Suppliers in October was 20.20 (Target = 20 days).

Late Payment legislation introduced in March 2013 provides for all undisputed invoices payable by a Public Authority to be paid within 30 calendar days, unless agreed with the supplier, and introduces financial penalties for late payment.

Notes:

WASTE AND CLEANLINESS (Business Manager - Geoff McManus)

Notes: The table represents household waste collected via the Council's recycling, composting, re-use and recovery services but excludes waste sent to landfill or energy for waste. Previously NI 192.

Mixed recyclables have been delivered to the same recycling facility for 11 years. No loads had been rejected and our residue (non-target materials) was reported at only 2% based on periodic analysis of 15 tonnes (three full loads). Quality sampling has changed at all recycling facilities following the introduction of new regulations. Residue rates are now based on the analysis of 60kg for every 160 tonnes deposited. YTD 23 loads of mixed recyclables have been rejected by the facility. No loads have been rejected since August 2015 due to a range of ongoing initiatives to promote quality recycling. Due to successful dialogue with the MRF operator, the sampling process has been revised to provide a more accurate representation materials received. As a result the rejection rate has reduced from 14.13% to 5.98%. This has been backdated to the 1st April.

Notes: The chart shows the individual months, the Council's overall recycling performance is shown in the cumulative table (previously NI 192). The ratio of recycling to general waste collection days cause variances (up and down) in the monthly performance. There were 5 weeks in October, 10 waste days and 12 recycling days.

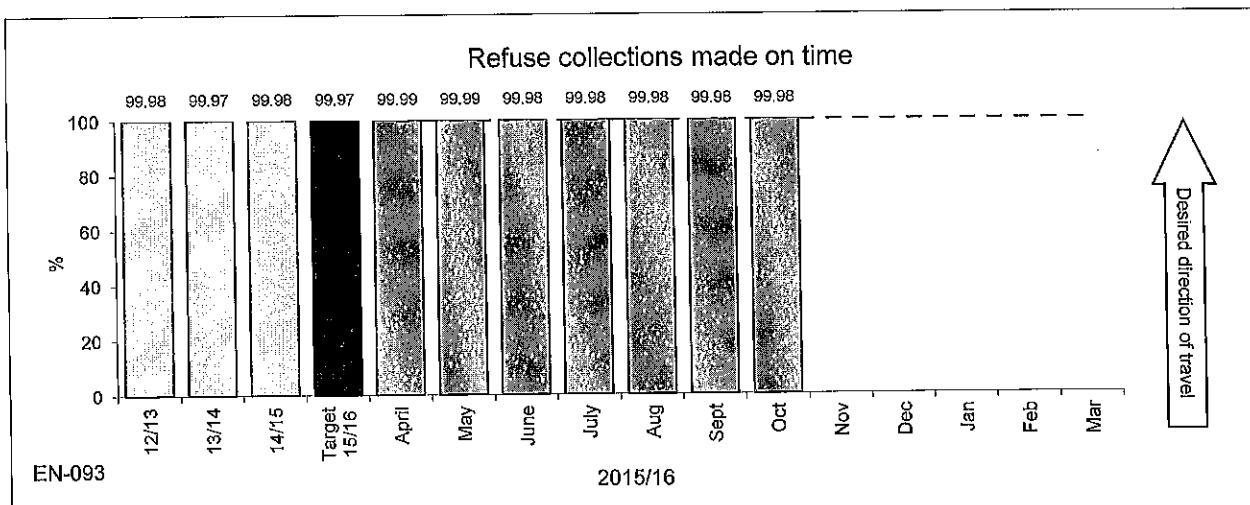

WASTE INDICATOR (Quarterly)

2015/16		Annual Target 15/16	Apr-Jun	Jul-Sept	Oct-Dec	Jan-Mar
NI 191	Residual household waste per household (Kg)	360	90.1	198.8		

Notes: Residual household waste per household is calculated on a quarterly basis.

Notes: Any time delay associated with receiving, verifying and processing contractor valuations has a negligible effect on the year end cumulative figure. May figure is April/May combined. As of October the year end projected cost of refuse per household is £30.92 compared to the original target of £35.05. This is due to savings achieved via negotiating the gate fees for mixed recyclables and green waste, as well as negotiating a lower contract price for food waste at flats, and bring site improvements, all of which are reflected on the savings page.

Notes: Indicator EN-093 enables the Council to measure its contractors performance by recording the number of genuine missed waste and recycling containers reported by residents. This does not include non-collections when the service is postponed as a result of inclement weather.

Notes: Calculated 3 times per year based on inspections Apr-Jul, Aug-Nov and Dec-Mar.

Notes:

Notes: Figures not available for October Green Book. Satisfaction surveys are carried out through a telephone poll of 300 residents every quarter.
 Annual averages for 2014/15: Street Cleaning 86%; Landscaping 85%.

PLANNING (Business Manager - Chris Dale)

Notes: Target based on Government objectives. Actual YTD 129/214 built on brownfield sites.

Notes: July=1, August=1, September=0, October=0.

Notes:

Notes:

Notes: See Exception Report.

Notes:

COMMUNITY SAFETY (Business Manager - Geoff McManus)

Notes: 24 hours from the time that the vehicle can be legally removed. The table shows the cumulative percentage of vehicles visited and removed during the course of the year. To date there have been 108 out of 114 vehicles inspected within 24 hours and 0 out of 0 vehicles removed within 24 hours.

Notes:

Notes: The graph shows the number of low risk inspections carried out as a percentage of those due so far to date (not for the whole year). The high percentage is largely due to the fact that some of the low risk inspections are done by an external contractor who has completed a proportion of their allocated inspections early.

Notes: For 2014/15, the figure of 79% satisfaction is based on 44 responses from compliant businesses and 3 from non-compliant businesses. Taking into consideration the responses from compliant businesses only, we received a satisfaction rate of 91%.

ANNUAL COMMUNITY SAFETY INDICATORS (reported at the end of the financial year)

REVENUE BUDGET - MAJOR VARIATIONS AND RISK AREAS

APRIL 2015 - OCTOBER 2015

Introduction

The report that follows summarises the General Fund and Housing Revenue Account budget variations for 2015/16 based on information available at the end of October.

Set out below are explanatory notes for the major variations that have been identified.

General Fund – Major Variations and Risk Areas

The Council allowed a General Fund risk contingency of £500,000 in the Budget for 2015/16, of which £21,200 has been spent to date on Sutton Green Flood alleviation study, £50,000 on Lightbox repair works, and £16,500 on replacement of automatic bollards at Woking Park. Also included in the Budget is a savings target of £497,693. Budget monitoring to the end of October 2015 indicates an Underspend for the year of £356,200. The major variations making up this underspend are reported below.

	Position to October £	Forecast Outturn 2015/16 £
a Peacocks	-29,359	-46,000
b Industrial and Other Sites rents	-85,806	-60,000
c Business Rates	62,800	62,800
d Taxi and Private Hire Licensing	15,167	26,000
e Building Control income	-40,526	-50,000
f Development Management income	-121,646	-100,000
g Bed and Breakfast Expenditure	33,000	75,000
h Home Improvement Agency Fee Income	12,000	36,000
Employees saving in excess of staffing budget	-152,428	-300,000
Total Underspend October 2015	<u>-306,797</u>	<u>-356,200</u>
Position at September 2015		<u>-356,200</u>

Items marked with a * in the table and the following comments have changed this month. Further details of each of these variations are set out in the following section. Unless specifically mentioned in the notes below, these variations are considered to be of a 'one-off' nature in 2015/16, and are unlikely to recur in future years.

a Peacocks (Ian Tomes, Strategic Asset Manager)

A rent review has resulted in further income of £25,000 for 2015/16, plus a variation relating to the Peacocks Centre development agreement has resulted in further income of £21,000. The net effect for 2015/16 is £46,000 more income than budgeted.

b Industrial and Other Sites (Ian Tomes, Strategic Asset Manager)

The full year effect of rent reviews and rents payable during 2015/16, which is partly offset by the cost of voids is £60,000 more income than budgeted.

c Business Rates (Geoff McManus, Neighbourhood Services Manager/Ian Tomes, Strategic Asset Manager)

Revaluation costs, voids and other minor variations in respect of Council buildings have resulted in an overspend against budget of £62,800 on NNDR in 2015/16.

- d Taxi and Private Hire Licensing (Jo McIntosh, Legal Services Manager, Corporate Strategy)
Previous years trends have continued up and above the budget adjustment estimated for 2015/16. There continues to be less driver renewals, although more new driver enquiries, and less operators with some operations combining and therefore requiring only one premises. In addition, the hackney carriage licence fee now includes vehicle testing fees. Consequently, there continues to be reduced income as newer vehicles are charged for one test. There was also additional cost to the Council for vehicle testing in respect of Euro Emissions 5 and NCAP 5 standards. The overall effect on the budget during 2015/16 is a shortfall of net income against budget of £10,000.

The police have decided to close Chertsey Road on Fridays and Saturdays as this has reduced crime. As the council do not have the authority to make Broadway a rank, a "pop-up" rank is being operated and run by a Marshall Service. The cost of this service for 2015/16 will be £16,000. Consideration will be given to whether the cost can be recovered through the Council's annual fees and charges review.

- e Building Control income (David Edwards, Chief Building Control Surveyor)
The small domestic market is still buoyant, and consequently income is well above target. In light of these positive trends a variation of at least £50,000 is expected in the current year. This position will be reviewed when the budget is being revised for 2016/17, and an appropriate increase will be applied.

- f Development Management income (Chris Dale, Development Manager)
Income continues to exceed the budget so far this year, mainly due to a number of large applications. A variation of £100,000 or more is now expected by the end of the year.

It is currently anticipated that at least £50,000 of this increase will continue in future years, and the situation will be reviewed later this year to assess if a budget variation of more than £50,000 for 2016/17 is appropriate.

- g Bed & Breakfast (Mark Rolt, Strategic Director)
Bed & Breakfast (B&B) activity is higher than budgeted so far in 2015/16. However the use of B&B has decreased since the spike last September and November when 18 and 14 households respectively were placed. Since November the average placement has been 9 households per month. It is also likely that households will be moved out of B&B more quickly over the next few months as more Temporary Accommodation (TA) becomes available. This is due to the Kingsmoor Park development allowing Council tenants, people in TA, and the Council's own Private Rented Scheme tenants to be housed. Some of the Council's own one bedroom and studio flats are also being used as TA when they become vacant. It is therefore anticipated that fewer households should be placed in B&B over the coming months.

- h Home Improvements Agency Fee Income (Neil Coles, Housing Standards Manager)
The number of mandatory Disabled Facilities Grants (DFGs) approved by the Council is lower than anticipated and this has directly reduced the resultant fee income secured by Homelink (the Council's Home Improvement Agency). The reduction in the number of DFG approvals is attributable to an increased number of clients failing to meet the mandatory eligibility criteria following a change to the passporting means-tested benefits. An assessment of demand for DFGs will be undertaken as part of the forthcoming review of the Council's Private Sector Housing Assistance Policy.

Housing Revenue Account (Mark Rolt, Strategic Director)

Forecast outturn figures indicate an estimated improvement in HRA costs of £31,344. The variations identified are set out in the table below:-

	Forecast Outturn 2015/16 £
HRA Rental Income Void Loss	-48,000 *
New Vision Homes Void Works Costs	50,000 *
Employees saving in excess of revised staffing budget	-33,344
Increase in projected HRA outturn	<u>-31,344</u>

HRA Rental Income Void Loss *

The 2015/16 budget was prepared based on an estimated void rate of 1%. The actual void rate for the year to date is 0.74%.

New Vision Homes Void Works Costs *

Additional works have been carried out when properties become void in order to prevent a second visit being necessary at a later date. It is estimated voids expenditure will be £50,000 over budget in 2015/16. This will be offset by savings under the planned programme of the New Vision Homes contract.

Capital and Investment Programme decisions

In December 2011 the Council approved the Capital Strategy which allowed for delegated authority to be granted to the Executive to approve new schemes up to £10 million in any year, subject to any individual project being not more than £5 million and the cost being contained within the Council's Authorised Borrowing Limit.

One scheme has been agreed by the Executive since the approval of the Investment Programme by Council in February 2015. The scheme relates to the repair and redevelopment of Provincial House at a project cost of £1.3m and is to be financed by loan.

Opportunity Purchases

The Investment Programme includes a budget of £3,000,000 for opportunity purchases. Acquisitions funded from this budget in 2015/16 to date are as follows:

Horseshoe Field	£35,000
-----------------	---------

CAR PARKS INCOME
APRIL 2015 - OCTOBER 2015

	Off Street PCNs	Off Street Parking Fees	Off Street Season Tickets	Total	On Street Parking	On Street CPE PCNs
Annual Budget	41,000	5,719,000	1,473,000	7,233,000	618,000	285,000
Budget to Date	24,000	3,202,000	1,250,000	4,476,000	351,000	166,000
Actual to Date	42,000	3,302,000	1,071,000	4,415,000	367,000	205,000

Car park activity to November continues to show confidence that the overall parking budget will be met by the end of 2015/16. As in previous years, Christmas activity will be important and any short term reduction in season ticket parking will increase public parking availability during this period.

The on street car parking budgets have been adjusted to reflect 2014/15 activity.

Peacocks

A rent review has resulted in further income of £25,000 for 2015/16, plus a variation relating to the Peacocks Centre development agreement has resulted in further income of £21,000. The net effect for 2015/16 is £46,000 more income than budgeted.

Wolsey Place

The overall position for Wolsey Place requires the rental income to be supported from the Wolsey Place reserve created at the time of acquisition and from the £10m received on surrender of a lease at Export House. This reserve is also used to fund dilapidations, refurbishments for new tenants and void costs.

Industrial and Other Sites

The full year effect of rent reviews and rents payable during 2015/16, which is partly offset by the cost of voids is £60,000 more income than budgeted.

Variation to Date	+40,526 +23%	+121,646 +49%	-465 -0%

Building Control (Jeni Jackson, Head of Planning Services)

The small domestic market is still buoyant, and consequently income is well above target. In light of these positive trends a variation of at least £50,000 is expected in the current year. This position will be reviewed when the budget is being revised for 2016/17, and an appropriate increase will be applied.

Development Management (Jeni Jackson, Head of Planning Services)

Income continues to exceed the budget so far this year, mainly due to a number of large applications. A variation of £100,000 or more is now expected by the end of the year.

It is currently anticipated that at least £50,000 of this increase will continue in future years, and the situation will be reviewed later this year to assess if a budget variation of more than £50,000 for 2016/17 is appropriate.

Land Charges (David Ripley, Revenue & Benefits Manager)

Prices have been amended from April 2015 to reflect the cost neutral requirement of Land Charges fees and income. It was anticipated that normal levels of activity, in conjunction with the revised prices, would result in a variation of at least £30,000 below budget in the current year to offset some of the excess from prior years. This has not materialised to date. The position will be monitored over the next few months as we move into the festive season where activity traditionally slows down, to see if this trend is maintained and the variation is realised.

October income exceeded budget by £13,000. The year end confirmed business is currently showing a loss of £91,000. We are currently forecasting a £20,000 loss but would expect to meet the budget by 31 March 2016.

Our expenditure is currently being maintained as per budget. There has been no real change in labour costs which are still running high.

The income to date includes subsidy of £92,980 in respect of accredited users compared with £118,341.30 at the same point last year.

Notes

1. At its meeting on the 5 February 2015 the Executive agreed that the staffing budget for the year would be limited to £12.5m and an annual average number of staff for the year of 345 FTE. CMG will manage the staffing budget flexibly within these two parameters.

2. The above figures exclude costs of £89,892 on redundancy payments, which will be met from the management of change budget. The amount is split as follows:

General Fund	76,292
Housing Revenue Account	13,600
	<u>89,892</u>

3. Contributions towards costs reflect costs included in main table for which we receive some external funding.

4. The employees saving in excess of revised General Fund staffing budget is used to fund the following activities in the current year with the net underspend being shown in the major variations summary table:

GF element (83%) of total underspend from above	172,973
Lakeview Community Development Worker	-20,544

Although loans to group companies have been lower than budgeted resulting in an adverse variation in interest income, this has been offset by lower interest costs on borrowing.

A sum of £188k has been included in interest paid in respect of a transfer of notional interest to the Wolsey Place reserve. Transfers to reserves reflecting the interest margins on loan advances have also been included in respect of Bandstand Square Developments Ltd (£318k).

* 10 properties were sold under the Right To Buy to the end of October, at an average discounted price of £136,180 compared with a forecast of 20 for the year @ £124,640 each.

The Right to Buy scheme changed on 1 April 2012. A greater discount of £75,000 is now available, reducing the level of net receipt we receive.

As part of these changes the Government gave a commitment that properties sold under Right To Buy would be replaced on a one to one basis. The Council has exercised the option to retain the receipts after deductions of assumed income from the government and payment of the Treasury Share. These receipts are available for an initial three years to contribute towards a proportion (30%) of the cost of replacement housing.

The first quarter Treasury Share payment for 2015/16 of £136,824 was made at the end of July 2015 and the Second quarter payment of £136,612 was paid at the end of October.

(1) £124,261k of the long term borrowing is Housing Revenue Account, with £98,006k of this relating to the Housing Self Financing settlement. The remainder of the borrowing relates to the General Fund.

(2) WBC Treasury utilises AAA rated Money Market Funds operated by Deutsche Bank Advisors, Ignis Asset Management and Prime Rate Capital Management to manage day to day cash flow.

(3) These investments are used to provide operational assets within the group companies, and consequently fall outside the liquidity measure within the Council's approved Investment Strategy i.e. that a minimum of 65% of investments should mature within 12 months of placing an investment.

There is a one month time lag on this report.

TCМК - Variance of £34k TRIAD income, in addition to a number of temporary timing issues.

TDL - Actuals of 14k are from rents received. The timing of project sales income relating to elements of Horsel, Maybury Flats, and Knaphill Library has not fallen into the period, contrary to budget assumptions.

TMSL - Turnover volume continues to be lower than budget. Staff recruitment process is underway to increase capacity.

TSL - Income is lower than budgeted due to the loss of output from the Goldwater Lodge site until 8th May 2015 due to the fire in December 2012.

TSCL Sales are below budget due to Streets Ahead money held on trust included in the budget.

** BPL (Brookwood Park Ltd) was acquired in Dec 2014 and therefore does not have a budget.
