

## MONITORING REPORTS - PROJECTS

### Executive Summary

The Executive receives regular reports on the progress of projects in the interests of financial prudence and to ensure open and transparent corporate governance.

This report details the status of projects as at the end of August 2020, incorporating capital and revenue projects, and is attached at Appendix 1.

As requested by the Executive, the attached list includes only active projects and those closed during this reporting period. The agreed reporting protocol stipulates that projects overdue against the published end date will be classified as amber if the over-run is less than 25% of total project schedule and red if above this level.

The project management methodology includes a formal approval process to extend project timescales, where there are clear practical and business reasons to do so. Appendix 1 includes a column showing revised end date, reflecting application of the approval process. For completeness the original end date is retained on the report.

There are no specific areas for concern or action by the Executive.
